Why doesn't your tweet mention these "features" of your bill?

Democrats claimed that the Republican Emergency Coronavirus bill of 580 pages was bloated, so they substituted Pelosi's bill that's more than 1200 pages long and includes:

- *Grants for audits of elections* • *Elimination of postal service debt*
- *Reporting of corporate board member diversity by race and gender*
- *Requirement for early voting* • *Forgiving 10K in student loans for every borrower*
- *Increased collective bargaining powers for federal employee unions*
- *Automatic extension of nonimmigrant visas* • *Increased fuel emissions standards for airlines*
- *Reporting on release of greenhouse gases from airline flights*
- *Expansion of wind and solar tax credits*

The Democrat bill isn't about helping Americans because of the coronavirus. It's about using the crisis to increase Democrat power.

Serious question here. Does the fact that the loans would be interest free make any kind of difference? I'm not quite sure how this works.

Insurance companies around the country are limiting access and choice when it comes to telemedicine by forcing patients to wait long lines or have phone-call only interactions with nurse hotlines rather than having a face-to-face real time video interactions with doctors.

Eugene Gu, MD @eugenegu 8h

We need a federal rule or directive telling insurance companies that they cannot limit access to telemedicine based on network status for HMO plans, Medicare Advantage, Kaiser, and other restricted plans. Telemedicine can save many masks and supplies by helping patients at home.

For those saying all flus and colds do that, COVID19 is different because it is a lower respiratory infection. It doesn't really cause the stuffy nose and head—it instead causes the deep dry cough.

From what I'm reading, neurological damage can cause sudden loss of both.

Congress must pass an emergency telemedicine law stopping insurance companies from limiting access and care to patients who have HMO plans from carriers like Blue Cross Blue Shield, Anthem, Cigna, as well as Medicare Advantage, Kaiser, and other restricted plans.

Eugene Gu, MD @eugenegu · 7h

Everyone is getting bailouts except for those who need it most — patients themselves. The power of telemedicine is the ability for doctors to reach patients anywhere in the country. Yet insurance plans are limiting care to network providers and hurting patients during a pandemic.

FYI since we now live in a time where you have to spell things out for most of Americans with Crayons.

No one has publicly said it's a Bio Weapon... Except a few who have the balls to question it like Senator Tom Cottom, Myself, and others.

I'm telling you my thoughts.

I don't understand why they are keeping this charade up. Trumps all but admitted it (invisible scourge, invisible enemy, Chinese virus, etc.)

If any reporter wants to earn some respect... they would ask "Sir... was this an accidental or purposeful release of a bioweapon"

Nobody said social distancing and staying at home is about the Green New Deal. In fact the Green New Deal has absolutely nothing to do with this. This is about saving as many lives as possible by preventing Americans from getting infected with the coronavirus.

Eugene Gu, MD @[illegible] · 10h
This is also about not having millions of Americans get infected with the coronavirus at the same time, which would flood our hospitals and ICUs with patients needing ventilators that are already in short supply like what we saw in Italy. Humans lives matter much more than money.

Cuomo does not have 26,000 cases

Plus all cases do not require a ventilator

Ok let's send all of the ventilators to NY & tell other cities to just let their people go without because Cuomo says he needs them.

Seriously? Good Grief. Cuomo knows very clearly he is pandering

So far this season, 45 million flu illnesses, at least 300,000 hospitalized & up to 46,000 deaths from flu, of which MORE than 100 are PEDIATRIC - a higher total at this point of the year than any season in the past decade. That doesn't matter because they can't blame Trump!

My point is you're destroying America, tens of millions are now unemployed, millions of small businesses have had to close their doors.. Supply Chain is WRECKED...

And instead of isolating those at risk, you close down the whole damn country.. It's madness... Unless China lied?

Our people want to return to work. They will practice Social Distancing and all else, and Seniors will be watched over protectively & lovingly. We can do two things together. THE CURE CANNOT BE WORSE (by far) THAN THE PROBLEM! Congress MUST ACT NOW. We will come back strong!

I cannot emphasize this enough: HUMAN LIVES ARE WORTH MUCH MORE THAN THE DOW JONES INDUSTRIAL AVERAGE. The economy is important but what use is money if you and your loved ones are dead? Money can always be made later. But your life cannot be refunded and purchased again.

Sending everyone back to work to get the economy roaring again is not going to magically make the coronavirus pandemic disappear. We will all be put back into this stay at home situation except hundreds of thousands of critically ill patients will flood our hospitals and ICUs.

Italy has a disproportionately higher population of older people. Likewise they have a higher rate of cigarette smoking than we do. Cultural norms in Italy include kissing people upon greeting.

Based on current numbers, rate of increase, and Cuomo's ratios, I don't foresee NY needing 30,000 ventilators.

I actually am glad the Democrats did this... They Increased the Unemployment Insurance for 4 months by $600 per week for those laid off.

Schumer calls it Unemployment on Steroids..

This is one of the best things I've seen in this bill.

Again, huge focus on those laid off and understandably there must be

But what is the incentive for those risking their own and their families lives to take care of everyone else?

I'm not a fan of government intervention into our lives & hate taxation, but with our current government excess, I would see this as a win, IF, it is debt/budget neutral

It likely won't be, so I can't support it, simply on principle

It's time the people stand up to this corruption within our government. If we can't see it's not about us it's about them. Time to restructure all of government pay structure. They should not be paid over the median income of the people. They get the same health ins. ect

We the people can start insisting that our states be reopened. In states like PA where there is no authority for the governor to close private businesses, we reopen them.

So, no doubts at this is not exactly a hoax, people are dying, but this was carefully planned like every time for the last time ... especially election years! Besides, Bill Gates needs another excuse to go on his vaccines to diminish population.

I get it, I don't want to continue to be locked in my house with four kids, a husband and my parents. But it's not a good way to get your point across. Also, the FBI is trying to regain the trust they lost, this isn't the way to do it.

Godlessness in the Last Days

3 But understand this, that in the last days there will come times of difficulty. 2 For people will be lovers of self, lovers of money, proud, arrogant, abusive, disobedient to their parents, ungrateful, unholy, 3 heartless, unappeasable, slanderous, without self-control, brutal, not loving good, 4 treacherous, reckless, swollen with conceit, lovers of pleasure rather than lovers of God, 5 having the appearance of godliness, but denying its power. Trump controls the FED

[illegible], the Fed isn't allowed to do any of this. The central bank is only allowed to purchase or lend against securities that have government guarantee. This includes Treasury securities, agency mortgage-backed securities and the debt issued by Fannie Mae and Freddie Mac. An argument can be made that can also include municipal securities, but nothing in the laundry list above.

So how can they do this? The Fed will finance a special purpose vehicle (SPV) for each acronym to conduct these operations. The Treasury, using the Exchange Stabilization Fund, will make an equity investment in each SPV and be in a "first loss" position. What does this mean? In essence, the Treasury, not the Fed, is buying all these securities and backstopping of loans; the Fed is acting as banker and providing financing. The Fed hired BlackRock Inc. to purchase these securities and handle the administration of the SPVs on behalf of the owner, the Treasury.

In other words, the federal government is nationalizing large swaths of the financial markets. The Fed is providing the money to do it. BlackRock will be doing the trades.

This scheme essentially merges the Fed and Treasury into one organization. So, meet your new Fed chairman, Donald Trump.

In 2008 when something similar was done, it was on a smaller scale. Since few understood it, the Bush and Obama administrations ceded total control of those aid [illegible] programs to then-Fed Chairman Ben Bernanke. He unwound them at the first available opportunity. But now, [illegible] years later, we have a much better understanding of how they work. And we have a president who has made it very clear how displeased he is that central bankers haven't used [illegible]

2 Timothy 3:1-5 English Standard Version (ESV)

Godlessness in the Last Days

3 But understand this, that in the last days there will come times of difficulty. 2 For people will be lovers of self, lovers of money, proud, arrogant, abusive, disobedient to their parents, ungrateful, unholy, 3 heartless, unappeasable, slanderous, without self-control, brutal, not loving good, 4 treacherous, reckless, swollen with conceit, lovers of pleasure rather than lovers of God, 5 having the appearance of godliness, but denying its power. Avoid such people.

This is Trumps real and documented response

A timeline of Trump's coronavirus statements:

Jan 2017 The incoming administration is given a briefing and training on pandemics
May 2018 Trump eliminates the Pandemic Response Team and staff
Dec 2019 The outbreak is reported

Jan. 22 "It's going to be just fine. We have it totally under control."
Jan. 24 "It will all work out well."
Jan. 30: "We think we have it very well under control."
Feb 7: "...as the weather starts to warm & the virus hopefully becomes weaker, and then gone."
Feb 10: "I think the virus is going to be... it's going to be fine."
Feb. 14 "...we're in very good shape."
Feb 19: "I think it's going to work out fine."
Feb 24 "The Coronavirus is very much under control in the USA."
Feb. 25: "You may ask about the coronavirus, which is very well under control in our country. We have very few people with it..."
Feb 26 "Because of all we've done, the risk to the American people remains very low."
Feb. 28: "I think it's really going well."
Feb 28: "It's going to disappear. One day, it's like a miracle, it will disappear."
Feb 28: "This is their new hoax."
March 4 "Some people will have this at a very light level and won't even go to a doctor or hospital, and they'll get better."

Matt.

The FBI already admitted to illegally obtaining FISA warrants. Next will be the indictments coming for it.

The FBI attorney who changed the language we hear has already turned evidence and was indicted.

THe other FBI attorney, his girlfriend or close friend too

Matt, focus on the mortality rate.

They are misleading us. Its 1 percent or less. Cuomo is playing a whining game but stockpiles ventilators. Before the Cove 19 NY had 82 % of ventilators in use. Now they double the use & percent dropped to 43% capacity, but Cuomo needs 30

Cuomo is playing a dramatic game. Not all Covid 19 people are in need of a ventilator. However, Cuomo does not answer how many are using them.

He knows this screws him right now if he says less than 1000 Covid19 patients are suing them

Cuomo is not telling America all

John Kerry @JohnKerry

Breaking news: Congressman Massie has tested positive for being an asshole. He must be quarantined to prevent the spread of his massive stupidity. He's given new meaning to the term #Masshole. (Finally, something the president and I can agree on!)

> **Donald J. Trump** @realDonaldTrump
> Looks like a third rate Grandstander named @RepThomasMassie, a Congressman from, unfortunately, a truly GREAT State, Kentucky, wants to vote against the new Save Our Workers Bill in Congress. He just wants the publicity. He can't stop it, only delay, which is both dangerous ...

Ha - thank you! Crazy that some scary some people here would willfully endanger the health of their colleagues. These days remind me of the work we did together on Ebola. Look forward to catching up soon. Hope you're well and safe!

TR began here in Louisville KY and is my fav place for steak. I went to Indy last month and ate at 2 upscale restaurants. I had $105 ribeye at one, and $85 ribeye at other. Neither of which included sides. And neither of which beat the ribeye with 2 sides at TR for $25 IMO.

Let me get this straight, you think @realDonaldTrump created the virus and is infecting the world with it? It came from China.
Did you blame Obama for all the deaths that occurred during his watch? How about Clinton? Moron.

My county just issued a "shelter in place" order. We have 3 confirmed positives out of a population of 100,000 people. 0.003% 10pm to 6am curfew despite all bars, night clubs, etc. closed down

Two weeks ago, all of the "experts" told us that we'd have more deaths than Italy, and there would be hospital beds in the streets.

A reminder to them all that it's time to move the goal post & "expertly" explain to us all that even though it didn't happen— they're still right.

It dropped because they purposely pulled treatment from the older ones in order to allocate resources to save the younger, healthier patients

GiViTi has been fairly open about this strategy.

By now, the most vulnerable are dead, so the death rate is dropping

Robert Barnes @Barnes_Law · 1h
Explain why that same drop in death rates is occurring pretty much everywhere after about 30 days, from Iran to the state of Washington

Let's start by dropping all six figure salaries in Congress down to 75,000 a year.
Heck I'll give you 80,000
Second thing, I'll send my check back if it means I never have to see your terrorist supporting a$$ in Congress again.

My Tweets are dangerous because I actually report things that are going on that the Mainstream media won't?

I'd love to hear your explanation on this...

Sure, the Virus is dangerous, and 154 people will die today from the Flu, 56,000 will die from the Flu alone this year Wendy.

> Your tweets have turned dangerous. Yes, I have seen these videos but I also work in medical field and so do my mom & sister. Yes, there is an alternative agenda with this virus, but it also is extremely dangerous. "Never let a crisis go to waste" Downplaying it is a mistake

I refuse to listen to any fear mongers who wont list the Flu statistics along with the CoronaVirus statistics...

The CDC estimates the average deaths from the Flu is 56,000 per year...

That’s almost 154 people dead per day from the Flu..

Report it or you’re Fake News!

1 Person can spread the Flu to 9 people.. they claim 1 person can spread this to 45 people.. That's 5X more spreadable..

I still haven't seen how any mask except a CERTAIN TYPE of MASK will actually help against the Virus. But we have to stop being so self centered in a time like this in America. It's unbelievable..

She was upset because they weren't selling to the Public yet, and were making them for Hospitals and First Responders, so she unfollowed me for it.

Great idea. How can we get people over the finance for the USA to commit suicide on some train tracks out of nowhere? Why do we have to wait for government criminals to die? Why can't we bring them to justice before then?

Big deal.

Test speed won't matter to the masses. This device is for point-of-care patients, not the drive-thru people.

Mass testing, i.e. outpatients who are symptomatic but not critical, will still take a day or two and be routed through reference labs like LabCorp or Quest.

People need to understand that under the Defense Production Act, First Responders, Military, Police, Fire Fighters, Healthcare workers are going to come first, they are facing the virus FIRST HAND.

My Pillow DIDN'T even have to make masks, and by making them... Just maybe.

They will Free up the supply and demand for others that are needing masks.

I still haven't seen how any mask except a CERTAIN TYPE of MASK will actually help against the Virus. But we have to stop being so self centered in a time like this in America. It's unbelievable.

Literally just received a rant full of messages from someone angry because I praised My Pillow and Mike Lindell for making masks..

She was upset because they weren't selling to the Public yet, and were making them for Hospitals and First Responders, so she unfollowed me for it.

I still haven't seen how any mask except a CERTAIN TYPE of MASK will actually help against the Virus. But we have to stop being so self centered in a time like this in America. It's unbelievable..

The stimulus package that just passed is the biggest wealth transfer from common folks to the super-rich (Wall Street and bankers) in the history of mankind.

Done in the name of a virus with $1200 checks as the cheese in the trap.

This will be obvious in short order.

Everyone in Washington was scared not to vote for it. Scared they would look like they don't care and didn't exercise leadership in a crisis.

But at latest by 2022 voting for this bill will be toxic for incumbents.

Big deal.

Test speed won't matter to the masses. This device is for point-of-care patients not the drive-thru people.

Mass testing, i.e. outpatients who are symptomatic but not critical, will still take a day or two and be routed through reference labs like LabCorp or Quest.

How do we speak up? I am a PhD scientist (immunology). The data is crystal clear that we have wide spread asymptomatic spread and that the death rate is flu or less. Has our government gone insane? How do we make them see reason? When is the antibody testing starting in UK or us?

10 37 71

Jordan Schachtel @JordanSchachte 29m

Talk to your scientist and MD friends. Try to build a coalition for sanity. Draft a letter. Publicize the letter (I can help). POTUS needs to hear from voices outside of the federal government, but those voices need to be well credentialed. You are essential to this

My Pillow is making 50,000 Masks per day now, and the Liberal Media is attacking them.

They're an AMERICAN company with ALL Operations in America

Pathetic, why isn't the liberal media attacking companies still doing business with CHINA?

Amazing how the media & the left pretend we didn't have a pandemic in 2009

And these same people have the audacity to say Trump reacted too late?!

I don't recall press conferences with Obama everyday

As a matter of fact, what was Obama doing? Nothing!

Just so folks understand. You cannot delete a Constitutionally protected right with an ordinance or law. It requires a Constitutional amendment.

The government could have given every person over $6,000, but instead will give $1,200 to each adult under a certain income.

To be fair, they don't care what it takes to make Trump look bad. There are polls indicating that the people trust Trump more than media by double digits. Networks are worried that the coverage they give him helps him despite the current situation

Sooooo in these difficult times that seem to get more difficult and complicated by the day, I just found out that I am positive for corona virus. I have been exposed to people in recent days who have subsequently tested positive and I had fever, chills and shortness of breath. I just hope I didn't give it to the kids and Cristina. That would make me feel worse than this illness! I am quarantined in my basement (which actually makes the rest of the family seem pleased!) I will do my shows from here. We will all beat this by being smart and tough and united!

With a pandemic ravaging our nation, this is the time to do our decades long awaited reform of our broken healthcare system so that 30 million Americans are not left uninsured and asked to die on the streets like animals. We really need a single payer universal healthcare system.

Eugene Gu, MD @eugenegu · 4h
If a pandemic is not the wakeup call to have universal healthcare, then nothing will be. Doctors have already turned away a 17 year-old boy desperately seeking help because he had no health insurance. They told him to go to the ER and he had a heart attack on the way and died.

You would think this would be a time when everyone could put aside political differences and root for everyone to stay healthy. The days of 9/11 are gone. It's all about which side of the aisle you fall on now, unfortunately.

My proposal to the politically correct Automobile Companies would lower the average price of a car to consumers by more than $3500, while at the same time making the cars substantially safer. Engines would run smoother. Positive impact on the environment! Foolish executives!

My proposal to the politically correct Automobile Companies would lower the average price of a car to consumers by more than $3500, while at the same time making the cars substantially safer. Engines would run smoother. Positive impact on the environment! Foolish executives!

donnie trump worked early on the virus by holding rallies on Jan 9, 14, 28, 30, Feb 10, 19,20, 21,28. He also played golf on Jan 18, 19, Feb 15, March 7, 8. This is how he responded as the virus slowly spread towards the USA. Likewise, he constantly downplayed the danger, FACTS!

Trump has many bad and dangerous ideas, and whenever he makes them I will always call them out. But this time I actually agree that Congress should give a break to restaurants and entertainers who have worked so hard and now are suffering from something beyond their control.

The IRS is forcing people on social security to file a tax return before they receive China virus relief.

Extremely disappointed to see the IRS directly contradicting the CARES Act, blocking aid to our seniors.

Seniors receiving only Social Security don't usually file. So your going to make seniors, who don't always have ability to drive, use computers, live alone, to go out during a stay at home environment and get their taxes done. Wow who came up with this great idea. Insane

I don't understand the "200,000 dead" math. They are estimating we peak April 15th at 2,214 daily deaths. We would need 90 days straight of peak daily deaths to reach 200,000?

Hannity's on attacking Cuomo

God this stuff is becoming insufferable to listen to

To be fair, Chris Cuomo is a terrible person. He was playing with peoples lives on CNN. But on another note, Gov. Cuomo has handled this pretty professionally. He let something out about his politics one time, not something to harp on the guy about since it's been repudiated

Given the Obama/Biden response to swine flu in 2009 I don't believe he has anything to offer other than perhaps what not to do. They were much slower to react with something that luckily was less deadly so he should really sit this one out.

Congress must pass the old, and very strongly proven, deductibility by businesses on restaurants and entertainment. This will bring restaurants, and everything related, back – and stronger than ever. Move quickly, they will all be saved!

Selling our liberty for $1,200

That was pretty cheap!

6 25 98

phil @wildman029934 · 9h

Our liberty was taken by force. The $1200 is so they can walk away feeling like the good guys.

It was never for sale, but what scares me is how many people are ok with this.

Matt they're legitimately purposefully killing small/medium businesses, creating the great depression (but worse) and locking us all under house arrest meanwhile rolling out 5G on our kids schools

Now our Fed is Nationalizing Corporations and people are begging for Socialism?

Congress must pass the old, and very strongly proven, deductibility by businesses on restaurants and entertainment. This will bring restaurants, and everything related, back and stronger than ever. Move quickly, they will all be saved!

Leftists would have you believe these restrictions were put in place because they benefitted "the rich."

Fact is, it was the restaurants who benefit from this sort of deduction.

6.6 million people filed for unemployment in the past week. This is on top of 3.3 million in the week prior to that, for a total of 9.9 million in just 2 weeks. This is a catastrophe of truly epic proportions. People are suffering, yet all the bailout money went to corporations.

We're in the middle of a pandemic and even before the coronavirus hit, more than 30 million Americans had no health insurance. Since many people's insurance is tied to employment, that number is much higher now. We have the worst, most profiteering healthcare system in the world.

I have been watching COVID19 since January. Donald Trump and this administration went to sleep for a month after the travel ban was put in place. If we had been doing everything we're doing now in February, like I suggested, we would already have flattened the curve. Fools

1/2 story has zero to do with trusting CDC. Don't understand why you keep posting it. Guy squeezed buttcheek of a girl he'd been friends w/ for over 30 years when she & another couple were leaving his dinner party. She didn't file a complaint for 10 months

Germany has been overrun with illegals in addition the government has done everything they could to self sabotage. Merkel and the main stream parties went to implement socialism. Believe me there is much more to the story than we ever will know.

its to keep asymptotic people from spreading the virus. if we promote universal masking (even homemade cloth masks that should be washed daily). it will help the spread of the virus. western brainwashed sheep are so conditioned to hate everything that isn't the norm in "MERICA!"

Just wear a homemade mask and move on. It's really not that hard. You're putting more energy into rebelling than it takes to buy/make and wear a damn mask.

Make no mistake: Pelosi's proposed committee to investigate the Coronavirus crisis is just another excuse to harass @realDonaldTrump.

You'd think 3 years of failed investigations & an impeachment flop would teach Dems their lesson—but apparently even a pandemic won't stop them.

Right. If you're stuck for months with small children they're going to outgrow their clothes, shoes, etc. That's just one example.

That's strange. You can social distance easier in the outdoors. I did the social distance dance a few times at the store today. Weaving in & out of people and aisles. I saw several gov"t black SUVs in East Hartford too. Gestured at the CCTV camera at the stop light. Strange day.

fact check: the Keystone XL pipeline will cause massive pollution, add only about 50 permanent jobs and will do nothing more than facilitate the passage of Canadian oil to Texas ports for international shipping. the benefit to the United States is a rounding error away from zero

I'm amazed that a Navy Commander let the media and public know that an entire Carrier Strike Group was dead in the water to our enemies, and people are attacking his removal.

This shouldn't be that hard to understand, but we've created a WEAK society.

3M is a global company that has outsourced N-95 mask production to other countries where the labor is much cheaper. Only a third of the masks are made here in the United States. That means other countries are keeping the masks for themselves and not shipping them back here.

928 2.0K 14K

Eugene Gu, MD @eugenegu · Apr 2

It doesn't matter then whether Trump invokes the Defense Production Act since domestic production of masks is limited and other countries are blocking exports to the United States. Trump needs to talk to these other countries and make a deal to get them to send these masks to us.

If you were the 2nd most powerful nation on earth, a great way to change the world order would be to unleash a terrible virus on a large inland city that has enough international connections to ensure world-wide spread. At the same time, you quickly shut down the virus locally.

from the book
A Higher Form Of Killing
a secret history of chemical and biological warfare

"saturate enemy medical facilities"

As to how these diseases were to be used in a future war, the Chemical Corps had a list of targets for the strategic air force. The first priority should be major cities. "The morale of the people in these targets is an all important factor, and will certainly affect a nation's will to fight. Attack on these targets should be directed toward achieving maximum anti-personnel effect with the least amount of destruction."[21] The attacks should be carried out on a massive scale, to saturate enemy medical facilities. The element of surprise would be enhanced, the Chemical Corps had decided, by the "insidious nature of the attack as regards detection, and the period of incubation before symptoms appear."

I have 3 walmarts within 20 miles of me. The one has a designated person wiping down the buggies with lysol wipes and you have to wait until she's done. You can't grab your own. It's a slow process but I didn't mind waiting. They should all do it

The study initially involved 600 black men – 399 with syphilis, 201 who did not have the disease. The study was conducted without the benefit of patients' informed consent. Researchers told the men they were being treated for "bad blood."

I think we need a 2nd task force assembled at direction of POTUS to look ahead to reopening of the economy. Made up of a nonpartisan/bipartisan mix of experts across industry sectors, so that we have their recommendations & plan ... let 1st taskforce focus on crisis at the moment

The fact is, they're still charging our restaurants 25-30%. If you can order directly from the restaurant and pick up, you're helping them.

Took a look at your food supplies. Like most preper foods, these are assuming everyone can eat anything. I bought food stocks a couple of years ago then was diagnosed with celiac. 2/3 of what I bought would make me very sick. Any plans to address issues like that?

The study initially involved 600 black men — 399 with syphilis, 201 who did not have the disease. The study was conducted without the benefit of patients' informed consent. Researchers told the men they were being treated for "bad blood."

What Went Wrong?

In July 1972, an Associated Press story about the Tuskegee Study caused a public outcry that led the Assistant Secretary for Health and Scientific Affairs to appoint an Ad Hoc Advisory Panel to review the study.

The men were never given adequate treatment for their disease. Even when penicillin became the drug of choice for syphilis in 1947, researchers did not offer it to the subjects.

You know those 140 ventilators Kate Brown is sending to New York?
They were sent to Oregon from the Feds last week for our "just in case". So now if Oregon needs them, they will blame @realDonaldTrump for not doing enough.
Heres her Tweet from just a few days ago!
@OregonGovBrown

@HHSGov & @fema.

They will save lives, but we will need more. I'm going to continue to fight for the critical equipment we need to keep Oregonians safe.

Good morning @NYGovCuomo quick question for you.

Gov. Cuomo, why are you denying New Yorkers hydroxychloroquine?

This drug has been helping people with coronavirus and yet you won't let the pharmacies prescribe it, why?

I wonder if renters would want to open their finances to a full audit to make sure they actually have no way to pay the rent? Landlords have bills to pay too.

The biggest fearmongering hoax is underway. Our country is headed to become a colony of China. Anthony Fauci must be fired & indicted.

What a trash human he is and awful loaded question that was. Great answer by Pence. I watched Anderson Cooper ask Fauci to undermine Trump's handling of individual state governing last night, also phrasing it as "not to get political". Also Gupta's grocery washing video.. smh...

It was an informative (to a 10 year old) video on how to wash your groceries with a Lysol wipe that they spent 5 minutes on and praised as if it was the cure, meanwhile he sat there sooo proud of himself. 🤮
